Lake Preservation Announcement:

Due to the overwhelming responses from lot owners, passing of the special assessment and the necessity to act on the preservation of our waterways the Lake Preservation Committee is embarking on the beginnings of addressing the tributaries of Pinnacle Creek and Mary White Hollow Creek.

After years of interviewing, meeting, and receiving bids we have decided to start the project. All companies interviewed agreed we need to address the tributaries first, then move onto dredging the channels. We have chosen a reputable contractor near our area but not associated/from within Pinnacle Lake. We will first be addressing the issues of what comes into the lake from the two largest creeks and then move to those coves by dredging the areas.

We will need you to be aware of the work in the areas and stay at a safe distance so the work can continue. Please note the main body of water in the lake will not be affected for usage while this is being done. Work will begin in June 2021.

Sincerely,

The Board of Trustees
Pinnacle Lake Estates, Inc.
